## **PROFESSIONAL SERVICES AGREEMENT**

### **1. PARTIES AND TERM.**

Pima County, a political subdivision of the State of Arizona ("**County**"), has approved participation in and support of the regional economic development corporation known as Sun Corridor Inc. ("**SCI**"), an Arizona private nonprofit corporation, under its authority to make contributions to economic development under A.R.S. §§ 11-254 and 11-254.04. The purpose of this agreement ("**Agreement**") is to set forth the regional economic development program that SCI will undertake, the respective roles of SCI and County, and the payments by County to SCI for Fiscal Year 2019/2020. The term of this Agreement will be from July 1, 2019 through June 30, 2020, unless further extended upon the mutual written agreement of the parties, or earlier terminated as provided in this Agreement.

### **2. BACKGROUND AND PURPOSE.**

Sun Corridor Inc. (SCI) was established in 2005 (originally as Tucson Regional Opportunities/TREO) to consolidate and coordinate all economic development activities and programs within the region. The primary goal of SCI was to facilitate primary (non-retail) job and investment growth in the region. Its work also includes creating a competitive environment that allows primary employers to flourish and succeed. Economies, both nationally and internationally, compete for jobs and capital investment based on regional strengths. The economic benefits of business expansion and attraction, no matter where physically located, transcend jurisdictional lines.

On July 1, 2015, SCI expanded its geographic coverage to more effectively serve and represent the assets and economic activities of the mega region of Southern Arizona. SCI now brings the economic potential of Pima, Pinal, Santa Cruz and Cochise Counties together to create opportunity and prosperity (see **Exhibit C**).

In May, 2018, SCI became the marketing arm for Tucson Airport Authority controlled properties. As airports are major economic drivers in many markets, and the Tucson International Airport serves the entire mega region defined above, this marketing relationship provides an opportunity to leverage the assets of the airport in improving the region's economy.

SCI offers a comprehensive range of programs and services to facilitate the creation of high-wage jobs through the attraction of new primary companies, the retention/expansion of existing primary companies and increased business creation/entrepreneurship throughout southern Arizona and also supports Pima County's economic activities related to Mexico and Canada.

SCI facilitates job growth in a competitive environment through a multi-faceted, data-driven strategic plan which was revised in 2014. The **Economic Blueprint** includes a target list of industries that match the current and future assets of the region and provide the best opportunity for long-term success. SCI's body of work includes the recruitment of primary companies, expansion of companies, retention of companies, marketing the region to a national and international audience and conducting competitive analysis related to the region's economic drivers. Through this analysis SCI shapes policy and mobilizes resources to ensure the region is competitive.

SCI is governed by the Sun Corridor Inc. Board of Directors made up of leaders from key employers, public sector partners, higher education and nonprofits. SCI focuses on issues that directly impact economic prosperity. SCI's success is predicated on the commitment to a regional approach to economic development in the geographic horizons that span from Mexico throughout southern Arizona, including Pima County. SCI brings together a broad range of interests to promote the Sun Corridor mega region as a single economic entity.

### **3. RESPONSIBILITIES OF SCI.**

3.1 **MISSION:** SCI's mission is to lead the growth of southern Arizona's economy, promote and grow bi-national commerce with Mexico and advocate for issues that will improve the mega-region's economic competitiveness and prosperity, as described above. Timing requirements are set forth in **Exhibit D**. These Performance Goals and Action Items will be used to evaluate and report progress on SCI's activity.
